STOCK MARKET  
REMAINS IDLE

Mild Upturn at Opening Is  
Reversed as Trading  
Progresses.

By The Associated Press  
NEW YORK, Aug. 2.—Except for  
a handful of favorites, stocks did  
little more than loaf in today's  
market.

The tendency was mildly up  
ward at the start. Early gains of  
fractional points on a few were later  
reversed or canceled in may in-  
stances.

Wall Street seemingly had eyes  
principally for Congress and much  
speculation was heard regarding  
chances of quick adjournment. No  
great amount of selling followed  
passage of the wage-hour bill by  
the Senate, although this develop-  
ment was far from encouraging to  
the financial sector.

Business continued to provide  
modest stimulation for individual  
traders.

Deeds and commodities, uneven  
at the best, furnished no clue for  
the stock list.

General Motors attracted some  
buying in anticipation of a pleas-  
ing dividend announcement after  
the close. The shares of this com-  
pany were up more than a point  
at one time, but eventually yielded  
part of this.

Chrysler shipped a shade better  
way.

Among the better share per-  
formers were U. S. Rubber, Good-  
rich, Goodyear, American Rolling  
Mill, Boeing, International Nickel,  
and International Harvester.

Virtually at a standstill to off  
a point were U. S. Steel, Bethle-  
hem, Republic, Youngtown Sheet  
& Tube, Montgomery Ward, Ana-  
conda, New York Central, Bal-  
timore & Ohio and Chesapeake Corp.

The aviation department at-  
tracted some attention as figures  
of the aeronautical chamber of  
commerce disclosed sales of air-  
crafts and parts in the first half  
topped the 1936 period by 52.4 per  
cent. Rubbers reflected hopeful  
estimates of larger business for  
these companies.

## STEEL RALLIES AFTER STRIKES

Nears Mid-July Record of 80 Per Cent as Interruptions Subside.

By The Associated Press  
CLEVELAND, O., Aug. 2.—Steel production came back strong last month after strikes and the vacation shut-down to nearly equal all time mid-July rate in excess of 80 per cent, the monthly business review of the Cleveland Federal Reserve bank said today.

The current production rate in the highest mid-July rate since 1929, the only year when a better rate was reported, the review said.

The high rate was attributed more to the volume of unfilled orders than to new buying, which has been below current production due to seasonal dullness and extension of third-quarter prices for the fourth quarter.

Steel input production in the first half of 1937 was short less than one per cent of establishing an all-time record.

Industrial surveys showed lake

shipments of iron ore and coal for June and early July in excess of 1929; electric power produced as far this year 17 per cent higher than the same period in 1929, and production of machine tool, heavy equipment, hardware, electrical supply, glass, paint and shoe factories maintained at high summer levels.

Automobile production exceeded the seasonal rate in early July, but dropped in the latter part of the month due to vacation shut-down and preparation for changes in models.

Rubber and tire plants reduced operations last month to permit absorption of inventories.

Store Sales Drop

Seasonal decline in department store sales for the period of May to June was reported in the district, but a 12 per cent gain was shown for June alone as compared with last year.

Labor conditions depressed trade to several cities and reduced employment at Cleveland, Canton, Massillon and Youngstown. Employment gains during June were reported at Columbus, Dayton, Springfield, Cincinnati and Toledo, O.

June building activity in the Cleveland area was 72 per cent greater than for the same month in 1929.

Farm production was lightened by harvesting of the latest wheat crop in this section since 1919.

## DETROIT ARCHBISHOP WILL BE INSTALLED

Clergy and Laity from Many States Gather for Ceremonies.

By The Associated Press  
DETROIT, Aug. 2.—Catholic clergy and laity from many states assembled here today to welcome the Most Rev. Edward Mooney who will be installed with impressive ceremonies tomorrow as first archbishop of the new archdiocese of Detroit.

The Rt. Rev. Mgr. John M. Doyle, diocesan administrator since the death of Bishop Michael J. Gallagher last January, said that more than one-third of the bishops and a majority of the archbishops of the Catholic church in North America would be in Detroit tomorrow.

Only the international Eucharistic congress in Chicago 11 years ago and the American Eucharistic congress in Cleveland two years ago attracted larger numbers of the hierarchy in America, he said. Mgr. Doyle predicted that 100,000 persons would gather at the Michigan Central station and in nearby Roosevelt park tonight to greet their new spiritual leader on his arrival from Rochester, N. Y.

Consultors and members of the diocese will board the train at Windsor, Ont. When Archbishop Mooney alights at the Detroit station, he will be presented to Gov. Frank Murphy, who will welcome him on behalf of the state, and to James Fitzgerald, national president of Catholic Charities, who will extend felicitations of the laity.

The archbishop will be escorted through ranks of plumed knights of Columbus and Knights of St. John in a platform in the park to receive greetings from a dozen Catholic organizations.

### ONE SHEEP CLAIM FILED

Only one claim for damages to sheep flock by dogs was filed with County Dog Warden Elmer Ulm for the week ended Saturday and investigation showed no evidence of damage, according to a report to county commissioners today. The claim was filed by L. Garner of Marion R. D. No. 5 in Richland township. During the week six dogs were impounded. The claim was disallowed.

## BOARD GRANTS DITCH PETITION

County commissioners today granted the petition of A. C. Brown of Agosta for improvement of the Brown single county ditch in Grand township following a brief hearing in their offices. The hearing was attended by Mr. Brown and several other interested landowners.

The improvement will consist of construction of a headwall and necessary backfills. The ditch is located north of route 20 west of Meeker. County Engineer Carl H. Tozer was directed to prepare estimates and plans and report back to commissioners by Aug. 15.

Other landowners affected are: C. L. and Mildred Anderson, C. H. and A. M. Born, C. L. Gates, Esther Day, May Hamilton, William and Mary Hessel, Union Central Life Insurance Co., C. A. McGraw, Philip Sheehan, A. C. Wilson, Emerson M. Parks, Henry Tribout and B. M. Smith.

## BOARD WILL INVITE COUNTY FUND BIDS

Commissioners Make Decision After Study of New Depository Law.

County commissioners today decided to advertise for bids for depositories for county funds in both active and inactive accounts after a study of the provisions of new federal and state laws which are effective Aug. 23. The laws provide that after that date bank members of the federal reserve system cannot pay interest on public funds in active accounts and can pay only limited amounts for inactive accounts.

Leo J. Gulek, president of the board of commissioners, said he does not believe the county has sufficient funds to place any in an inactive account. If funds are so placed, commissioners must state the money will not be withdrawn for stipulated periods.

Regardless of the belief of commissioners that they have an insufficient surplus to set aside in an inactive account, they said they will advertise for bids for the inactive account to find how much interest the banks will pay if the county is ever able to establish an inactive account.

The present contracts with local

banks call for one-fourth of one per cent on active accounts, which now total approximately \$600,000. The county has no inactive account at present. It is permissible to withdraw funds at any time from the active account.

Western Thrillers

**HE WAS RIDING ON  
DYNAMITE AND  
NEVER KNEW IT UNTIL..**

"This Close Shave," says Zane Grey, "Should Make Every  
Motorist Think Twice Before Gambling on Tires."

THERE is one motoring mishap that the best of drivers cannot forecast. And it caught Edward Zachary of Hartford, Connecticut, completely off guard. He was whizzing along at a good clip. He had the Northford Road practically to himself when BANG—the right front tire blew out. An uncontrollable drag yanked the car smack alongside of a guard rail. Flying wheels moved down fence posts before Mr. Zachary came to a sudden stop.

## Special Goodrich Tire

Today's faster driving conditions call for a special tire. The Goodrich Safety Silvertown is just that kind of a tire. It's the *only* tire with the Life Saver Golden Ply. This life saving invention is a layer of special rubber and full-floating cords, scientifically treated to resist the internal tire heat that causes many of today's high speed blow-outs. By resisting this heat inside the tire, these Golden Ply Silvertowns give you, and every one that rides with you, real protection against those high speed blow-outs.

From now on you'll find Edward Zachary's car equipped with Silvertowns. For your own peace of mind—for the protection of your family and friends make your next set of tires Golden Ply Silvertowns.
